## Patient Examination Bed

## FEATURES & HIGHLIGHTS

### PRO MedLux Patient Examination Bed

#### TECHNICAL PARAMETERS

• Product Dimensions:	190×60×65cm
• Sponge Thickness:	6cm
• Bed Frame:	40mm square, 1.0mm thick
• Bed Legs:	50mm square, 1.0mm thick
• drawers:	2 pcs
• Load Capacity:	200kg
• Thickened steel frame, less prone to deformation	
• Thickened mattress, less prone to wrinkles; leather less prone to cracking	
• Suitable Locations:	Beauty salons, wellness centers, leisure clubs, plastic surgery clinics, etc.

## The "Heavy-Duty" Look

The 50mm square legs you mentioned are clearly visible in the photos. They give the bed that "grounded" and professional look, which is essential for the 200kg load capacity you specified. It's much beefier than a standard massage table.

## Advanced Ergonomic Comfort

Experience the perfect balance of support and softness with a 6cm high-density sponge core. The contoured headrest provides essential neck support, making it ideal for extended beauty treatments or clinical examinations.

## Integrated Smart Storage

Maximize your workspace efficiency with dual built-in drawer consoles. These two smooth-gliding drawers provide immediate access to stethoscopes, gauzes, and essential medical supplies, keeping your treatment area organized and professional.

## Versatile Clinical Application

Designed for excellence across multiple industries, this bed is the premier choice for plastic surgery clinics, wellness centers, and high-end beauty salons. Its sleek white powder-coated frame and light blue accents blend seamlessly into contemporary medical interiors.
